

UPPER GNOME ROAM TRAIL

CLUES

- 1** When you start on the loop, be sure to have a good look, for a jolly yellow gnome and his little pet duck.
- 2** Head past Village View, and make sure not to zoom; look out for two gnomes with some flowers in bloom!
- 3** We hope on the trail it's nice and sunny, you can find me relaxing with my best friend bunny.
- 4** As you pass through the trees, be sure of one thing – these two gnomes love to swing!
- 5** You're surrounded by bushes, we hope you're having fun(gi), maybe you could come over and join me?
- 6** On the forest floor is our trio of gnomes unique; those who cannot hear, see or speak.
- 7** Before you head across the stream, on the bridge, be sure to look out for two piggybacking gnomes on the ridge!
- 8** As the village looms back into sight, try to search for the gnome who's been sleeping in sunlight.
- 9** Near the edge of the loop, are a gnome and his mushroom house – look at the level where you'd find a mouse!
- 10** As you head back into the trees, keep an eye out for some hidden dancing gnome buddies.
- 11** As you're heading baaa-ck up the hill, look out for a tiny gnome and his friend sitting still.
- 12** For the next clue, you don't need to see in the dark – keep an eye out for two gnomes with lights having a lark!
- 13** It's the second to last clue, so nearly the end of the loop. You can find five gnomes and their frog friend here in a group!
- 14** As you come back to the top, we hope it didn't take hours – the final three gnomes are sat in the wildflowers!
